User Manual

Subject Zero

Samar Chauhan

Introduction

Subject Zero is a 2D top-down zombie survival shooter played in a web browser. The player controls a character who must survive an infected area, fight zombies, and reach the exit.

The goal is to survive and escape while avoiding damage and using power-ups effectively.

How to Run the Game

1. Download or open the game folder
2. Open a terminal in the project directory
3. Run the following command:

   python3 -m http.server

4. Open a browser (Chrome recommended)
5. Go to:

http://localhost:8000

6. The game will start at the main menu

System Requirements

Desktop or laptop computer

Keyboard and mouse required

Modern web browser:

- Google Chrome (recommended)
- Safari

Note:

The game may not work correctly on mobile devices since it requires keyboard and mouse input.

Controls

The player uses both keyboard and mouse.

Movement:

- W → Move up
- A → Move left
- S → Move down
- D → Move right

Aiming:

- Move mouse → Aim direction
- The player rotates to face the cursor

Shooting:

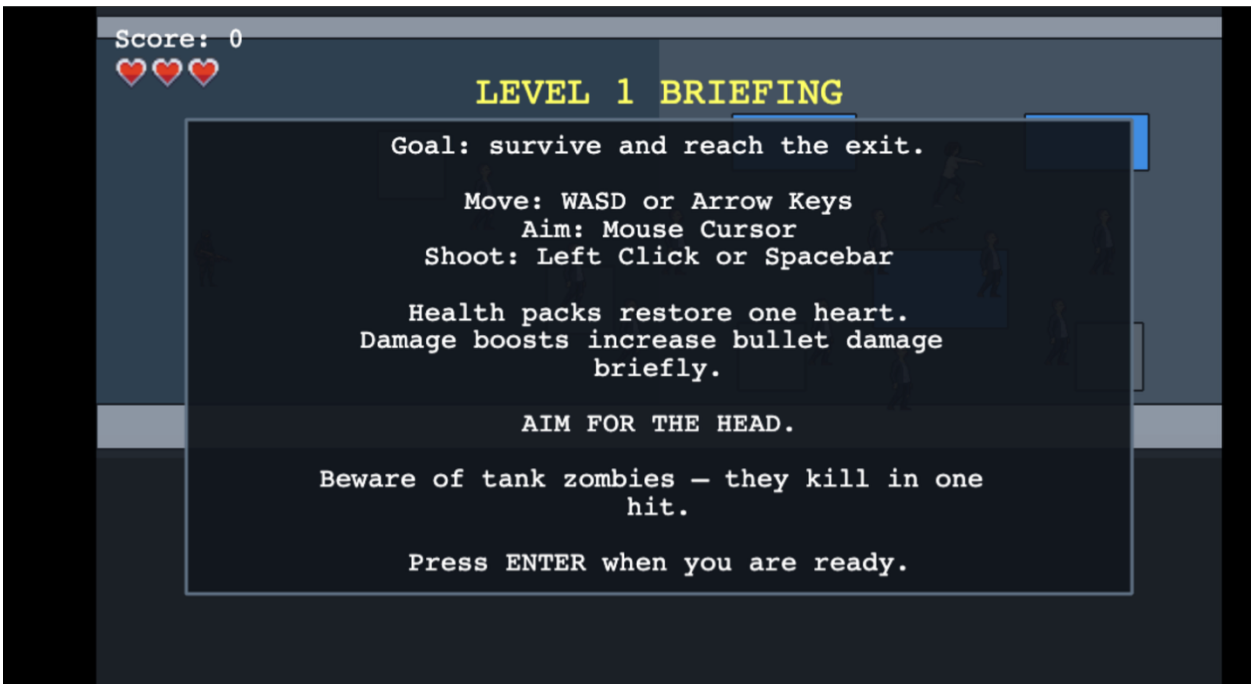
- Left Click → Shoot in the direction of the cursor
- Space Bar → Shoot in the direction of the cursor

Game Controls:

- Enter → Start game / continue from instruction screen

Gameplay Overview

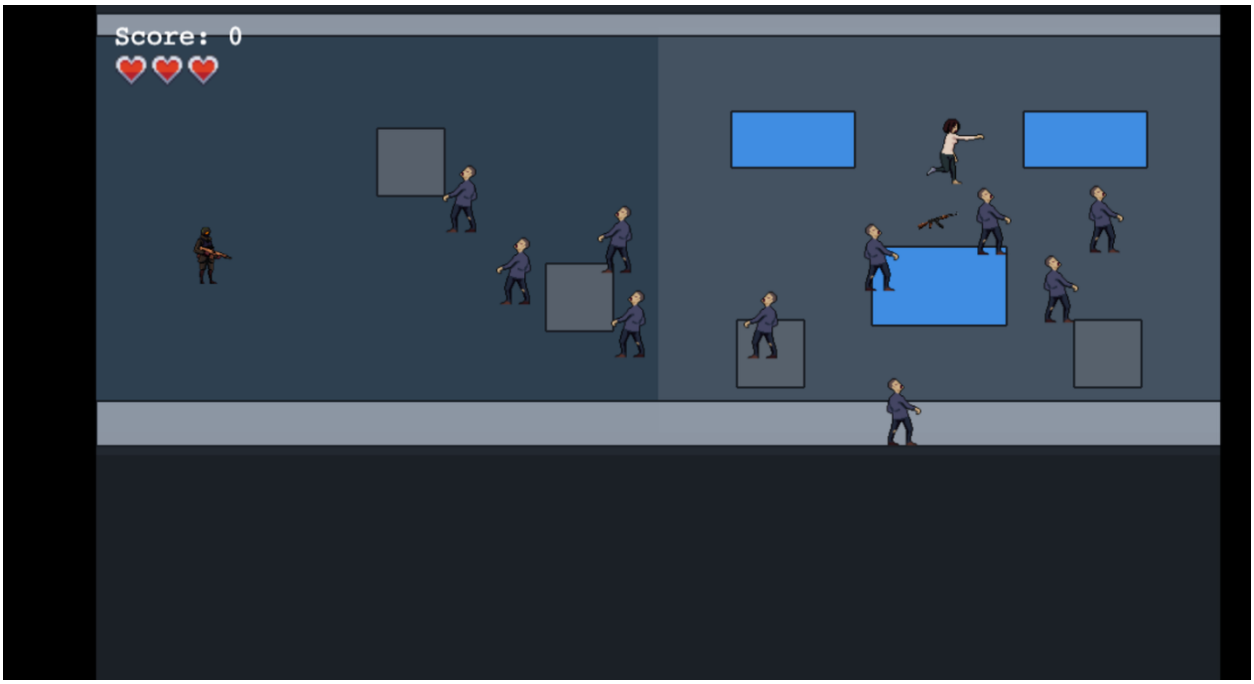
After starting the game, the player will first see an instruction screen. This explains the objective, controls, and enemy types.



Press Enter to begin.

Once the game starts:

- Move through the level from left to right
- Fight zombies
- Collect power-ups
- Avoid taking damage
- Reach the exit to win



Enemies

Normal Zombie

- Deals 1 heart of damage per hit
- Takes 1 headshot to kill

Tank Zombie

- Instantly kills the player on contact
- Must be avoided at all costs
- Takes multiple headshots to kill

Power-ups

Health Pack: Restores 1 heart

Damage Boost: Temporarily increases damage

Assault Rifle (AK):

- Faster shooting weapon
- Can be fired automatically by holding the shoot button (mouse or spacebar)
- Helps deal with multiple enemies

Health System

- Player starts with 3 hearts
- Each normal zombie hit removes 1 heart
- Tank zombies instantly kill the player
- Game ends when all hearts are lost

Scoring System

Normal Zombie defeated → +10 points

Tank Zombie defeated → +10 points

Score increases only when enemies are killed.

Winning and Losing

Win Condition: Reach the exit

Lose Condition: Lose all hearts OR get hit by a tank zombie

Tips for Playing

Keep moving — standing still will get you surrounded.

Prioritize avoiding tank zombies.

Make sure to pick up the assault rifle to increase your damage.

Save the health pack and use it accordingly.

Troubleshooting

Game not loading:

Make sure you are running the game using:

- python3 -m http.server

Do not open the file directly (double-clicking index.html may not work)

Assets not loading (missing images):

- Check that you are in the correct folder when running the server

Controls not working:

- Make sure the game window is clicked and focused

Performance issues:

- Use Google Chrome for best performance

Notes

This game is designed for desktop use only.

It requires a keyboard and mouse.

It is built using JavaScript and Phaser 3.
